## **Hakalau Chocolate**

**Family Farm \* Organically Grown  
Honey-Sweetened \* Pure  
Hand-Crafted**

Hakalau Chocolate is as pure as it gets – sweetened only with liquid Hawaiian honey. It melts on the tongue, with no added cocoa butter delaying the release of flavor. It is rich in naturally occurring healthy oils and mood-enhancing theobromine.

We use cacao grown on our farm and nearby friends' organic farms; although not certified, these farmers are conscientious about growing organic – they do not use any pesticides or commercial fertilizers on the trees, but do use rich compost and mulch, companion plants, etc. Our honey is from pesticide-free, small Big Island beekeepers.

Our off-grid permaculture farm uses renewable energy for everything we can, including deliveries. Packaged products for wholesale are permitted by the Hawaii Dept of Health through use of the Hilo Food Hub kitchen. We would love to supply you with our wholesome, delicious chocolate!
